## Kids fun and high technology at XVI XVI

The new original concept of **Restaurant Le XVI XVI** that has been the talk of the town because of their robot bartender is serving brunch on Sundays. Both: "à la carte" menu and "breakfast buffet" are offered, while kids can play with the robot that is also serving... juices and smoothies for the occasion. The gigantic brunch buffet includes: home-made pastries, fresh fruit platters, oysters and meat stations. The "à la carte menu", where you will find truffle scrambled eggs and orange-caramel French toast showcases what talented chef Joris Larigaldie can do in the kitchen.
